GREAT SAVING IN DRESSMAKING. Mrs. Curtis' First Premium

Models.

INOCCES.

THEM A LADY CAN, IN A FEW minutes, shape any article of wearing apparel, including the GORED DRESS, BASS, GUINE, SACK, FOSTILLION, ZOUAVE, GIRDLE, APRON, PANTALOONS, VEST, &c., to fit perfectly without trying on.

The system is Mathematically perfect, hence it removes all anxiety regarding the fit of a bress. There will be no ALTERING—30 TARING UP or LETTING OUT, which not only injures the material but destroys the proportions and often rurns the Dress. It is not only exact, but so clear and simple that any person can learn in an hour to cut any garment.

How many ladies of limited means could dress better could they SAVETHE PRICE OF THE MAKING OF A DIESS, which they can do by the use of these MODELS; and how much uscless anxiety would be saved by the wealthy and most fastidious were they certain that the dress being made would fit to please them. It would fit cut by this system.

Is it not pleasant for mothers to be able to cut, after a few hours' attention to this System, every style of GORED DRESS to fit perfectly without the laid of a pattern or of trying on, and every style of Basquine cloak, Circular Cloak and all other Cloaks, and indeed every article of weering apparel to fit ev ry size, from the babe to the large step terson, and the cutturing to be a delight instead of a trouble. Realise this, and then see if you can get along without these Models.

If Applications for instruction, addressed to MRS. WATSON, and left at Mrs. Hein's Millinery establishment, Government streat, will roceive prompt attention.

AT Models supplied gratis to those taking instruction, and Pashinable Patterns sold sema.

ceive prompt attention.

IF Mod ls supplied gratis to those taking instruction, and Fashionable Patterns sold separately if desired. Ladies waited on. m4 lm

The Coal Discoveries at Sooke

THREE GOOD SEAMS FOUND.

Captain Nagle and Mr. Mohun, civil engineer, who returned on Wednesday from Sooke, confirm the brief announcement made in yesterday's Colonist of great coal discoveries having been made on the former gentleman's property in Sooke Harbor. These gentlemen report that three seams of coal are visible running north and south, and cropping out to the water's edge within a few feet of five or six fathoms anchorage. They inspected two of the seams, and broke off the specimens brought by them to town. These specimens were examined yesterday by These specimens were examined yesterday by practical men and other competent judges, and pronounced to be highly promising bituminous coal for outeroppings. The samples taken from one seam, which is two feet thick at the surface, so closely resemble Nanaimo coal as to be scarcely distinguishable to the casual observer. Those taken from the other seam, which is four feet thick, are said to resemble good Welsh coal, and pronounced to indicate a valuable seam of a quality at precent unknown on the Island. On Saturday the Sir James Douglas will proceed to Sooke, taking Mr. Nichol of Nanaimo, who goes to inspect the seams, accompanied by Dr. Tolmie, Hon. D. Fraser, C. W. Wallace, Esq., and other gontlemen. Captain Thorn was shown the samples of coal, which are to be seen at Mr. Backus' store, before leaving yesterday, and stated his intention of sending yesterday, and stated in intention of securing up an engineer to report upon the coal on behalf of the Steam Navigation Company. We trust that the discovery may lead to good results and make the fortunes of all

—Sir,—Little has been heard of late, as to what progress (if any) the Hudson Bay Co. are making with the proposed undertaking, of putting a telegraph across the continent, on British territory. If the work were indeed finished, and the line in working order, deed finished, and the line in working order, it would not be likely to pay working expenses at present, as it would in a manner be isolated from, and in opposition to the present lines of American telegraph to this place. There is however little doubt, but that such a line between this and the east if connected with an ocean telegraph line between Victoria, China and India via the Sandwich Islands, would he an enterprize which would pay the shareholders handsomely, and make Victoria a great focal point for telegrams to all parts of the world.

world.

By glancing at a map of the Pacific ocean, it will be readily seen what a number of Islands are scattered through the whole extent of the southern Pacific to Australia, India and China, which would serve as so many stepping stones, in a great system of ocean telegraphs, encircling all parts of the Pacific ocean in one bond of electric communication.

As Vancouver Island is several hundred miles nearer to India, China and Australia, than any other point of the continent one can see how Victoria is destined some days to be the postured from day to be the centre of such a system as I have reffered to.

No doubt within 2 or 3 years, ocean cables will be much improved in many respects, that ponderous snake like coil, must give way to a light and handy cable, which can be easily stored on board ship and as easily paid out, and handled.

There is no reason that a cable consisting of 3 small copper wires, the whole not to

of 3 small copper wires, the whole not to exceed 1/4 to 3/6 of an inch in diameter, interwoven with some textile fabric, and covered properly with some substance to resist the action of the salt water, would not answer all purposes as well as the ponder-ous iron clad cable now in use. A gentleman ous iron olad cable now in use. A gentleman named McIutosh has brought such a system of telegraphs before the British public, and that system is likely to prove a complete success, as by the adoption of such a system, ocean telegraphs will be of easy accomplishment, and the cost will be reduced to a fraction of the present expense. The four Reviews re-published by Messrs. Scorr & Co., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. Whoever dispenses with reading publications of this class, whatever may be his general information, will soon be altogethor behind the times in which he lives—and in these times a person may soon get very far behind. They may be read and studied with advantage ty the people of this country, of every creed and party.

party.

If Blackwood is unusually attractive at this time, to Americans not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Yon Borke, a German officer, chief-of-staff to Gen. J. E. B. Stuart, of the Confederate

Holloway's Pills and Ointment—Stomach and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and easting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary influence of the Pills.

HOLLOWAY'S OINTMENT .- Wounds, Scalds, HOLLOWAY'S OINTMENT.—Wounds, Scalds, Burns, and Irritating Sores.—The peculialry mild, soothing, anti-inflammatory power exerted by this Ointment strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no anery aspect, and never long tortues the little sufferer, whose very excites each bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Ointment an essential to a well appointed nursery. The Ointment is applicable to any ore, whatever its character. It conducts to health as sure as the compass points to the north.

as sure as the compass points to the north.

HOLLOWAY'S OINTMENT AND PILLS—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure he resorted to. In Holloway's unrivalled Ointment and Pills' the dropsical patient will ever find succour; the present relief derived from th. use of these remedies is marvellously quick, and perseverance in the steady application of this notice Ointment invariably results in a lasting and satisfactory cure. The two medicines act with succentry on the circulation and absorbent system that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns. HOLLOWAY' OINTMENT AND PILLS .-- Fistu

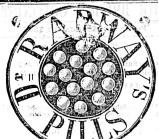

HOLLOWAY OINTMENT AND PILLS.—Fistu las, Piles, Excoriations, and Strictures, are specially relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these scourges of the buman frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In excoriations, a few applications of this healing Ointment effect a cure, while the Pills, conjointy used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

HOLLOWAY'S CINTMENT AND PILLS-These HOLLOWAY'S OINTMENT AND PILLS—These potent remedies constitute a materia medies in themselves, for there is no i ternal or external disorder cont. ollable by met. Interpretation of the one or the other of them is not a positive remedy—eruptions, tum'rs, serofuia, scurry, cancer, asthma, rheumatism, gcut, and drops entirely subside and disappear under the action of these joint medicines; and in cases of indigestion, sick headache, bile, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astonishing results imple are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature.

the simplicity of Nature.

Holloway's Ointment and Pills—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the frecirculation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves vessels, and guiders, it will arrest disease and again establish healthy action. The aperient and purifying qualities of the Pills have the happies, effect in assisting the Ointment.

HOLLOWAY'S PILLS.—General deblity, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many evils, and is so common, so universal a complaint, that it is a great biessing that such a remedy as this invaluable medicine should have been discovered. They are peculiarly mild and gentle in their action, and are as safe as they are efficacious.

Holloway's Pills and Ointmext.—Influenza, Colds.—In disease of the throat and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will retore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, motbife matter is expelled, and a happy revolution occurs throughout the system.
